RF Explorer H-Loop Near Field Antenna (RFEAN2

SKU 114990711

Low-cost H-loop near field antenna
Easy to use, reliable with high accuracy and resolution
Great spatial resolution
Circuit sensitivity
Capable of pre-EMC compliance tests

Description

Features

Robust calibrated low cost H-loop near field antenna

Can work with RF Explorer Spectrum Analyzer, Signal Generator and other RF instruments and devices

Easy to use, reliable to find interference sources with high accuracy and resolution

Can be used to detect hidden bugs and transmission sources with great spatial resolution

Feasible to generate interferences with Signal Generator and confirm RF circuit sensitivity

Capable of pre-EMC compliance tests

Specification

Connector: SMA female

High frequency RF SMA Male-Male included

Type: H-loop near field

Characterized response: 1MHz to 7Ghz

RoHS compliant

Part List

1 x H-loop near field antenna

1 x Semirigid SMA Male-Male RG402 10cm 6GHz cable
