P/N T-0600 Strip Header/Socket Break Tool

FEATURES

- This break tool allows user to customize header and socket strips to any number of positions, eliminating stocking problems and providing immediate adaptability for any length requirement to any grid or matrix pattern.
- Adjustable stop ensures consistent pin counts for production use.
- Used with Aries Pin-Line™ sockets and Strip-Line™/Pin-Line™ Headers.

CUSTOMIZATION: In addition to the standard products shown on this page, Aries specializes in custom design and production. Special materials, platings, sizes, and configurations can be furnished, depending on the quantity. **NOTE**: Aries reserves the right to change product general specifications without notice.
