MicroSD Card with Adapter

SKU:
240-075

Description

This SDH2 V2.0-compliant MicroSD card is perfect for use with our SD/MicroSD equipped products. For example, our ZYBO board can boot Linux off of one, and our chipKIT WF32 can store web pages on one. With the included MicroSD-to-SD adapter, you can even use it with our PmodSD, giving you access to high speed storage from almost any system board with a Pmod port. Plus, with a certified class 10 rating*, it's fast enough for 1080p video recordings or other high-bandwidth applications.

When using the adapter, you'll be able to write-protect the card as well. Allow your professor, fellow students, or your dog take a look at your data without making changes. Hey, an added layer of defense against Murphy's Law is never a bad idea! To that end, the card & its adapter come in a clear plastic protective case.

**Supports 10 MB/S non-fragmented sequential write speed and uses a high-speed bus mode.*
