Electronic board base, plug-in module base element

Why buy this product

- The modules can be marked using the marking grooves in the lateral element as well as with the Phoenix Contact PMB module marker, which is snapped into a bore hole (4 mm Ø) in the PCB
- Fast assembly thanks to the plug-in module principle. The tight engagement of the individual elements ensures that they are securely connected.
- Wide range of options for external conductor connection
- The mounting flange supports direct wall mounting
- Due to the universal foot, the modules can be snapped onto standard EN DIN rails
