2.4GHz WiFi Antenna

+9dBi Hinged WHIP

Features

- Freq Range 2400-2500MHz
- Omni-Directional
- Active gain: +9dBi
- Compliant with IEEE 802.11b and 802.11g wireless LANs
- Hinged Adjustable 90deg SMA Connector
- VSWR <2.0
- Vertical Polarization

Applications

- WLAN
- Range Extension

Description

A rugged high Gain Antenna for 2.4GHz / WLAN applications where high performance is required .
