Best Value in the Industry

*Tuff*Crimp 12 Ton

Item: 902-480

The Tuff Crimp 12 Ton Hydraulic Crimping Tool can apply an amazing 12 tons of hydraulic force for effortless crimping. In addition, this tool's head can rotate 350° so you can crimp in tight spaces, and it has an automatic pressure-release and a manual retract after crimping. This crimping tool accepts industry standard dies. A built-in safety valve will by-pass the oil supply when maximum pressure is reached. The perfect tool to crimp compression lugs and connectors onto copper, aluminum and ASCR (Aluminum Conductor Steel-Reinforced) wire and grounding rods.

- Crimping Force: 12 tons
- Crimping Range: AWG 6 to 750 MCM
- Stroke: 1.65 in.
