Magnet Square - 0.125"

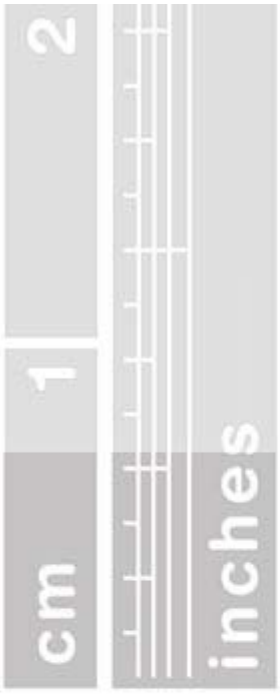

COM-08644 RoHS

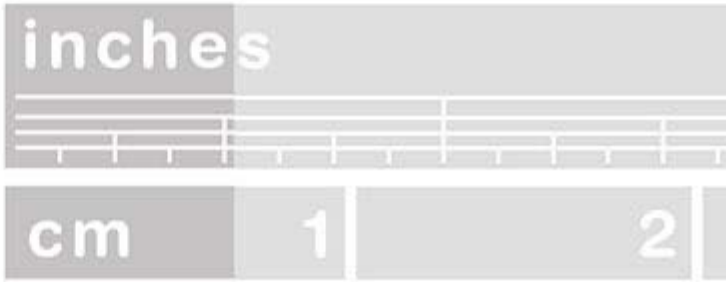

Description: These are very small rare earth magnets - 0.125" cubed. Composed of Neodymium/Iron/Boron (NdFeB), these magnets are curiously strong and make for a great way to attach tools to a metal workbench, hold small children to a fridge, and as a trigger for reed switches. Don’t let the photo fool you - these are very small magnets.

Activates the reed switch (shown below) at a distance of about 1cm.

Sold in single units.
