ONE mXTEND[™] (NN02-201)

DATASHEET

ONE mXTEND[™]: Highly versatile and powerful.

ONE mXTEND[™] is the smallest Virtual Antenna[®] chip for both **cellular** and **unlicensed** IoT wireless devices (ISM). Featuring a size of 7 x 3 x 1mm, this antenna chip has been designed to fit just about every **IoT device**, particularly *small, light, entry-level products*. **ONE mXTEND[™]** is enabled by Virtual Antenna[®] technology, thus featuring the unique properties of this class of products: versatile tunability within the broadest operating range in the market: 800 MHz up to 10600 MHz. This makes the perfect product for **multiband connectivity** at cellular IoT, including connectivity within several **2G, 3G, 4G, and 5G** bands, but also for unlicensed regions of the spectrum such as for instance the entire range of **WiFi-6E**.
