# Single Three Prong Grounded AC Outlet Power Module

## IMACP01

## Description:

The IMACP01 is a modular DIN rail mounted snap on design UL Approved AC receptacle and outlet that makes installation quick and easy while at the same time occupying a minimum of panel space.

## Features:

- One Piece Design - No need to order, inventory & assemble separate parts, easy installation.
- Finger Safe Connections - Increased safety during maintenance.
- DIN Rail Mountable Design - Simple snap-on mount. No need to drill and tap holes to mount.
- Interface Module Design - Visually pleasing appearance, consistent with other interface module products.
- Safe and secure screw clamp wire terminations.
- Clear Marking - Terminals are clearly and permanently marked.
