Snapfit LED Indicator Lights for 1/4" Dia. Mounting Hole

L59 SERIES

- SNAPFIT LED INDICATOR LIGHTS
- 1/4" DIA. MOUNTING HOLE
- BLACK NYLON HOUSING WITH INTEGRAL BEZEL
- 6" WIRE LEADS OR STRAIGHT TERMINALS
- CLEAR OR DIFFUSED LED • VARIOUS LED COLORS • 2 TO 24 VOLTS D.C.

Overview

The L59 Series LED indicators are constructed with a black nylon housing with integral bezel. Each unit is supplied with a high brightness clear or diffused LED and two color-coded 6" wire leads. Standard voltages range from 2 to 24 volts DC. Indicators snapfit into 0.250"(6.35mm) diameter mounting hole with a recommended panel thickness range of 0 .030" to 0.062" (0.762-1.57mm). Current: 20mA Typical.

Specifications

Housing: *black nylon.*

LED Lens: *clear* ***(L59C)*** *or diffused* ***(L59D)****.*

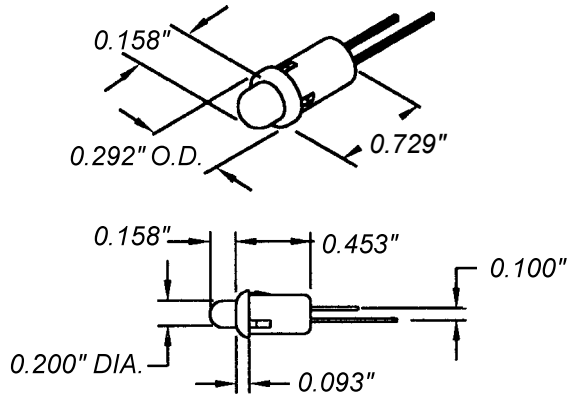

LED DC voltage options: *2, 6, 12 and 24 volts.*

Wire leads:
6" leads: *#24 AWG, prebonded copper, thin wall PVC, UL/CSA rated 105° C, stripped 1/2". A red wire lead denotes the anode (+) while a black wire lead identifies the cathode (-). Custom wire lenths, stripping, termination and wire types are available.*

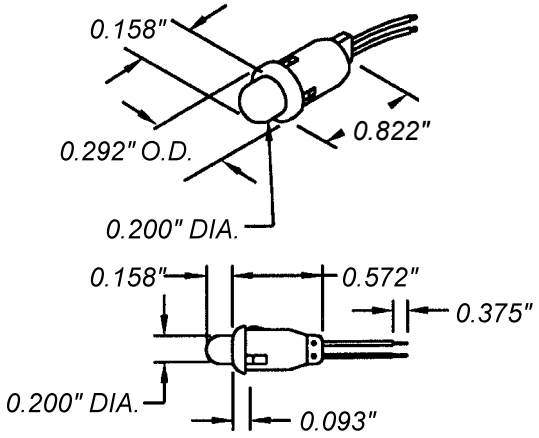

Terminals:
Bare terminals: *longer terminal lead identifies the anode (+).*

Other LEDs: *bi-color, low current or ultrabright.*

BARE TERMINAL VERSION

WITH WIRE LEADS

Can't find it here? We have many more standard and custom solutions

The items in this product sheets are only a small respresentative sample of the complete VCC product line. We manufacture many additional products which are not shown in this product sheet due to space contraints.

Custom products can also be designed uniquely for you by our Technical Support Professionals. Starting from your ideas and specifications, we work wiht your personnel to develop timely and cost effective solutions for your minature lighting needs.

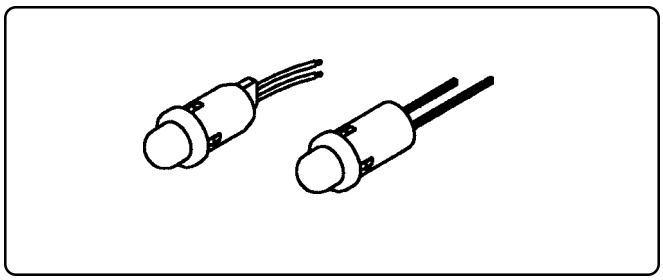

VCC Technical Support Services are provided without charge and may include designs, prototypes and pre-production samples.
