MABA–011063

Balun transformer, 2:1 step down flux coupled

MACOM's MABA–011063 is a 2:1 flux coupled transformer. This transformer is ideally suited for CATV and Broadband applications.

Features

- 2:1 impedance
- Excellent temperature stability
- RoHS compliant and Pb free
- 260° reflow compatible
- Available on tape and reel
- Surface mount
- Suitable for all CATV, Broadband and FTTX applications
- RoHS* compliant and 260°C reflow compatible

Applications

- CATV, Broadband

Specifications

- Min Frequency: 5 MHz
- Max Frequency: 300 MHz
- Insertion Loss: 0.8 dB
