Multi-Hole Bushings

Chloroprene multi-hole bushings for use with SAB's Metric, PG or NPT plastic or metal cord grips

Fits SAB Metric, PG, or NPT Cord Grips

Multi-hole bushings are specialized rubber bushings used in cable gland installations, particularly in applications where multiple cables need to be routed through a single opening in an enclosure or panel. These bushings provide a secure, organized, and environmentally protected way of managing and sealing cables as they enter electrical equipment, panels, or enclosures.

Construction:

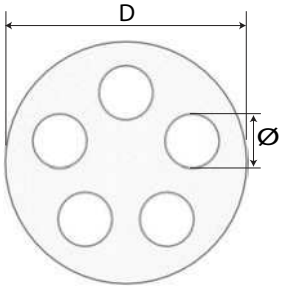

Material:	Chloroprene (CR)
Color:	Black

Outstanding Features:

- **Perfect when space is limited on a cabinet**
- **Cable organization**
- **For use with SAB cable glands only**
