

Thermal Tape 4x4" Square

PRT-17054

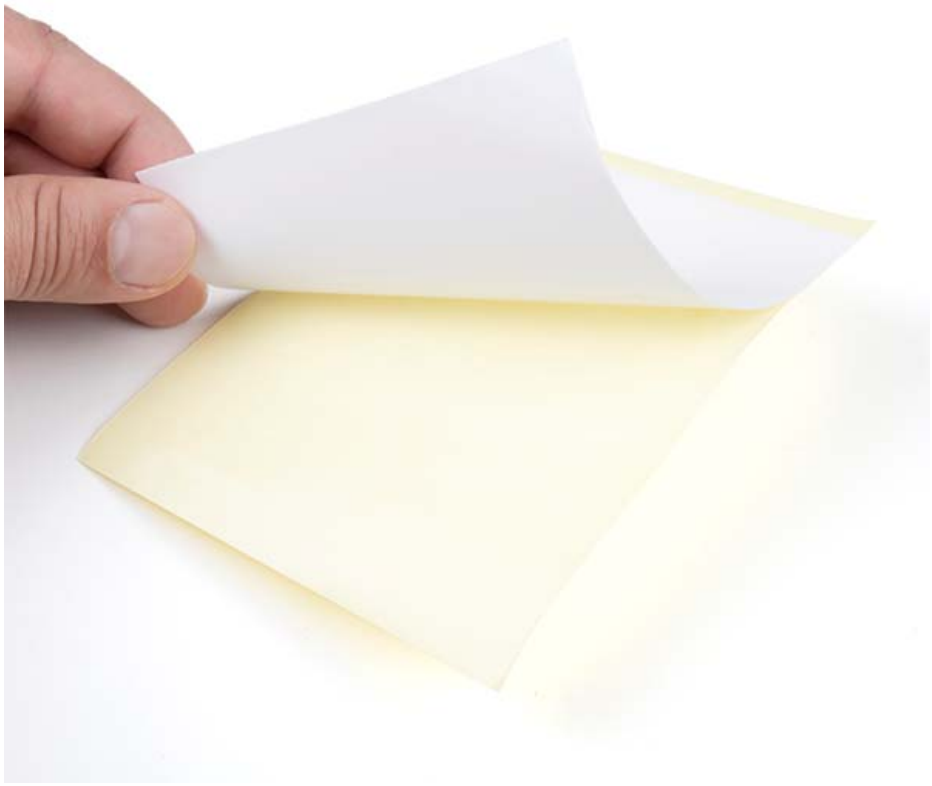

DESCRIPTION

Thermally Conductive Adhesive Transfer Tapes are designed to provide a preferential heat-transfer path between heat-generating components and heat sinks or other cooling devices (e.g., fans, heat spreaders or heat pipes).

This is a 4x4" square, 0.2mm thickness piece of thermal tape.

FEATURES

- 4x4" square
- 0.2mm thickness
