Introduction

We are pleased to present the updated Product Catalog for Distribution 2014. This catalog outlines the full range of semiconductors available from Infineon Technologies through our distribution channel.

Reflecting the depth and range of our offering, this overview extends from communication devices and microcontrollers through power semiconductors and discretes to sensors and security solutions. For fast and easy reference, we have kept technical details to a minimum and added an overview of all device names and order codes at the back. Please refer to our data sheets, data books and user's manuals if you require in-depth technical data on a given product.

We work closely with our distributors to ensure that these products are available for rapid delivery. However, please be aware that individual distributors may not necessarily be authorized to offer the entire range of products outlined in this catalog. The choice of products held in stock and available for delivery is entirely at the discretion of the individual distributor. Please note that most products listed in this overview are RoHS-compliant. However, please check the actual status and availability with your distributor. Similarly, Infineon does not assume responsibility for the accuracy or completeness of the information contained in this overview.

For general information, please visit www.infineon.com.

Off-Line LED Driver ICs				
ICL8001G	SP000773086	ICL8001GXUMA1	PG-DSO-8-1	Dimmable off-line LED driver controller, simplifies LED driver implementation, quasi-resonant flyback/buck, tape & reel
ICL8002G	SP000923986	ICL8002GXUMA1	PG-DSO-8-1	Dimmable off-line LED driver controller,optimized for best possible dimming performance, quasi-resonant flyback/buck, tape & reel
Smart Ballast Control ICs for Fluorescent Lamp Ballasts				
■ ICB1FL02G	SP000204703	ICB1FL02GXUMA1	PG-DSO-18-1	PFC, ballast control and half-bridge driver in one IC, tape & reel
■ ICB1FL03G	SP000626792	ICB1FL03GXUMA1	PG-DSO-18-2	PFC, ballast control and half-bridge driver in one IC, tape & reel
ICB2FL01G	SP000363741	ICB2FL01GXUMA1	PG-DSO-19-1	2nd generation FL-controller for flourescent lamp ballasts, tape & reel
ICB2FL02G	SP000555574	ICB2FL02GXUMA1	PG-DSO-19-1	2nd generation FL-controller for flourescent lamp ballasts, optimized to operating frequency and detection threshold, tape & reel
ICB2FL03G	SP000776684	ICB2FL03GXUMA1	PG-DSO-16-20	2nd generation FL-controller for flourescent lamp ballasts, including a discontinuous mode Power Factor Correction (PFC), lamp inverter control and a high-voltage level shift half-bridge driver, tape & reel

Warnings
Due to technical requirements components may contain dangerous substances. For information on the types in question please contact your nearest Infineon Technologies Office. Infineon Technologies Components may only be used in life-support devices or systems with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support device or system, or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body, or to support and/or maintain and sustain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.
