Notes:

1. For covered version with integral fan, replace B in the part number with C, e.g PBL500PS12C. V3 not available on covered version.
2. 250W convection cooled or 450-500W with 51m³/h (30cfm) forced air cooling provided by the user. 450-500W for 'C version'.
3. Ripple and noise is the maximum peak-to-peak voltage value measured at the output with 20MHz bandwidth, at rated line voltage and output load, and with a 10µF tantalum capacitor in parallel with a 0.1µF ceramic capacitor.
