

SWISSBIT PART NUMBER – THE DNA OF YOUR SPECIFIC PRODUCT

S	F	SA	128G	Q	1	A	A	4	T0	I	N	C	*	*																									
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15																									
SWISSBIT MEMORY (1)			128G	Q	1	A	A	4	T0	I	N	C	*	*	DESIGN OPTION (15)																								
MEMORY TYPE (2)															CONFIGURATION (14)																								
F: Flash Products																																							
PRODUCT TYPE (3)															128G												NAND PACKAGE & PIN MODE (13)												
U2: USB 2.0 Flash Drive																																							
U3: USB 3.1 Flash Drive																																							
UI: Embedded USB / eUSB															128G												FLASH PACKAGE CLASSIFICATION (12)												
CA: CFast™																																							
CF: CompactFlash™																																							
SD: SD Memory Card															128G												TEMPERATURE RATING (11)												
MM: Multimedia Card																																							
EM: Embedded MMC (eMMC)																																							
EN: Embedded PCIe															128G												FLASH SUPPLIER (10)												
SA: SATA																																							
PC: PCIe																																							
DENSITY (4)															128G												CHIPS / CHANNELS (9)												
0016 – 0512 = 16 MB – 512 MB																																							
1024, 2048, 4096, 8192 = 1 GB – 8 GB																																							
004G – 960G = 4 GB – 960 GB															128G												SWISSBIT PART NUMBER – THE DNA OF YOUR SPECIFIC PRODUCT For further details visit www.swissbit.com												
1T92 = 2 TB																																							
PRODUCT DIMENSION (5)																																							
E: USB drive															128G												NAND FLASH PRODUCTS												
H: CompactFlash™ / CFast™																																							
J: UFD Module 2.54 mm terminal header																																							
K: UFD Module 2.00 mm terminal header															128G												SWISSBIT PART NUMBER – THE DNA OF YOUR SPECIFIC PRODUCT For further details visit www.swissbit.com												
L: SD Memory Card																																							
M: M.2 SSD																																							
N: microSD Memory Card															128G												SWISSBIT PART NUMBER – THE DNA OF YOUR SPECIFIC PRODUCT For further details visit www.swissbit.com												
O: Multimedia Card																																							
Q: SSD 2.5"																																							
U: mSATA (M0–300)															128G												SWISSBIT PART NUMBER – THE DNA OF YOUR SPECIFIC PRODUCT For further details visit www.swissbit.com												
V: SLIM SATA (M0–297)																																							
C: USB COB																																							
B: BGA															128G												SWISSBIT PART NUMBER – THE DNA OF YOUR SPECIFIC PRODUCT For further details visit www.swissbit.com												
PRODUCT GENERATION (6)																																							
MEMORY ORGANIZATION (7)																																							
TECHNOLOGY (8)
