Description | Features | What's Included | Software | Support

Digilent is now a proud distributor of Measurement Computing Corporation (MCC) DAQ and data logging products. MCC is a leading supplier of data acquisition solutions that are easy-to-use, easy-to-integrate, and easy-to-support.

The USB-2404-UI features four simultaneous analog inputs capable of measuring voltage, current, thermocouples, RTDs, resistance, and bridge-based sensors. This device features an A/D per channel and includes channel-to-channel and system to host isolation.

Software support includes DAQami, an out-of-the-box application for data logging, visualization, and signal generation. Data can be viewed in real-time or post-acquisition on user-configurable displays. Drivers are included for the most popular applications and programming languages including Visual C++®, Visual C#®, Visual Basic®.NET, DASYLab®, LabVIEW™, and Python™.
