

PHANTOM ELITE

UHF Mobile Antenna 406-512 MHz

TE's unique patented Phantom Elite UHF Mobile antenna models are available in the 406-512 MHz operating ranges and delivers durability and high performance for outdoor or indoor applications. Suitable for outdoor and indoor applications, the revolutionary design measures only 3.5" and features vertical polarization. The Phantom Elite provides frequency agility, low visibility, wide bandwidth and a low angle radiation pattern that is superior to traditional gain antennas in most applications. The industry standard NMO mounting socket mates with all TE's magnetic, trunk lid, and hole mounts. A threaded permanent stud mount model is also available for vandal resistant mounting on brackets, panels, ceilings or any other kind of housing.
