

## NPN POWER SILICON TRANSISTOR

Qualified per MIL-PRF-19500/514

### Devices

2N6274

2N6277

### Qualified Level

JAN  
JANTX  
JANTXV

### MAXIMUM RATINGS

| Ratings                                        | Symbol                                       | 2N6274                                        | 2N6277 | Unit               |
|------------------------------------------------|----------------------------------------------|-----------------------------------------------|--------|--------------------|
| Collector-Emitter Voltage                      | $V_{CEO}$                                    | 100                                           | 150    | Vdc                |
| Collector-Base Voltage                         | $V_{CBO}$                                    | 120                                           | 180    | Vdc                |
| Emitter-Base Voltage                           | $V_{EBO}$                                    | 6.0                                           |        | Vdc                |
| Base Current                                   | $I_B$                                        | 20                                            |        | Adc                |
| Collector Current                              | $I_C$                                        | 50                                            |        | Adc                |
| Total Power Dissipation                        | @ $T_C = +25^{\circ}\text{C}$ <sup>(1)</sup> | 250                                           |        | W                  |
|                                                |                                              | @ $T_C = +100^{\circ}\text{C}$ <sup>(2)</sup> |        | W                  |
| Operating & Storage Junction Temperature Range | $T_j, T_{stg}$                               | -65 to +200                                   |        | $^{\circ}\text{C}$ |

### THERMAL CHARACTERISTICS

| Characteristics                      | Symbol          | Max. | Unit                 |
|--------------------------------------|-----------------|------|----------------------|
| Thermal Resistance, Junction-to-Case | $R_{\theta JC}$ | 0.7  | $^{\circ}\text{C/W}$ |

1) Derate linearly 1.43 W/ $^{\circ}\text{C}$  between  $T_C = +25^{\circ}\text{C}$  and  $T_C = +200^{\circ}\text{C}$

TO-3\*  
(TO-204AA)

\*See appendix A for package outline

### ELECTRICAL CHARACTERISTICS ( $T_C = 25^{\circ}\text{C}$ unless otherwise noted)

| Characteristics | Symbol | Min. | Max. | Unit |
|-----------------|--------|------|------|------|
|-----------------|--------|------|------|------|

### OFF CHARACTERISTICS

|                                                                                           |        |               |     |                 |
|-------------------------------------------------------------------------------------------|--------|---------------|-----|-----------------|
