10-32 Rack Thumb Screw *TSCREW Series*

Tool-free rack mounting screws for fast installation and removal of rack-mounted equipment in 10-32 threaded rack rails.

TAA COMPLIANT

RoHS

Key Features and Benefits

- Heat-treated 10-32 steel thumb screws provide a durable, reusable mounting solution for equipment installed in threaded rack rails.
- Large knurled head allows equipment to be installed or removed by hand, reducing installation time during equipment moves, adds, and changes.
- Slotted and Phillips combination drive provides the flexibility to tighten or loosen the screw by hand or with common hand tools when additional torque is required.
- Factory-installed nylon washer helps protect painted rack rails and equipment faceplates from scratches during installation.
- Heat-treated steel construction resists stripping and provides dependable long-term performance.
- Black oxide finish delivers corrosion resistance and a professional appearance.
- Available in 25, 50, and 100-piece reusable jars for installers, maintenance departments, and OEM production.
- Ideal for equipment that is frequently installed, removed, or serviced.
- RoHS and REACH compliant.

The TSCREW Series 10-32 Rack Thumb Screws make it easy to install and remove rack-mounted equipment without tools. The large knurled head provides a comfortable grip for hand tightening, while the slotted and Phillips combination drive allows a screwdriver to be used whenever additional torque is needed. Each screw includes a factory-installed nylon washer to help protect rack rails and equipment during installation.

Designed for 10-32 threaded rack rails, the TSCREW Series is ideal for equipment that requires frequent access, including patch panels, cable managers, blanking panels, shelves, and test equipment. Whether used in a data center, telecommunications room, AV installation, or industrial network cabinet, these thumb screws simplify equipment changes while maintaining a secure installation.

When Another Product May Be a Better Choice

- When you need higher torque or permanent equipment installation, choose the **SCREW** Series Rack Mounting Screws with pilot points.

Part No.	Qty Included	Screw Head Diameter	Screw Head Height	Screw Length
TSCREW1032-25	25 screws with nylon washers	0.45	0.38	1.00
TSCREW1032-50	50 screws with nylon washers	0.45	0.38	1.00
TSCREW1032-100	100 screws with nylon washers	0.45	0.38	1.00

Where the TSCREW Series Works Best

- Frequently serviced network and telecommunications racks.

Best Applications

- Installing blanking panels and cable management accessories.

- Test and measurement equipment racks.
- AV equipment racks with regular equipment changes.
- Demo, lab, and staging environments.
- Data centers performing frequent equipment moves, adds, and changes.
- Rack installations where tool-free access improves service efficiency.
- Mounting patch panels and lightweight rack equipment.
- Frequently removing equipment for maintenance or testing.
- Temporary equipment installations during commissioning.
- Replacing standard rack screws with tool-free hardware.
